

BOARD OF EDUCATION
LONG BEACH UNIFIED SCHOOL DISTRICT

SUBJECT: Approved Materials Testing and
Inspection Consultants

Enclosures: Yes

CATEGORY: New Business

Reason for Board
Consideration: Action

Business Services

Date: June 23, 2016

BACKGROUND:

Pursuant to Request for Qualifications #1516/06, staff is requesting that the Board approve a pool of Pre-qualified Materials Testing and Inspection Consultants to provide services for the Measure K Bond Program. This list will supersede the former pre-qualified list established by Request for Qualifications #0910/03.

Materials testing and inspection consultants test materials, such as concrete and steel, and inspect site conditions for compliance with applicable codes and plans and specifications. Testing is required by the California Division of State Architect.

The Materials Testing and Inspection Consulting Services RFQ was advertised on the Press Telegram, posted on the Long Beach Unified School District website under the Measure K Construction and posted on the California Coalition for Adequate School Housing website.

In order for a project to qualify for state funding, Materials Testing and Inspection Consultants utilized must be pre-qualified. A pre-qualified list allows staff to expeditiously select, via a Request for Proposal process, from a highly qualified list of consultants when services are required.

RECOMMENDATION:

Approve list of Pre-Qualified Materials Testing and Inspection Consultants.

Approved:

Approved and Recommended:

Yumi Takahashi
Chief Business & Financial Officer

Christopher J. Steinhauser
Superintendent of Schools

Long Beach Unified School District
