Measure E COVID-19 Transportation Update

Currently, LBUSD is working diligently to plan bus transportation following the COVID-19 guidance provided from the California Department of Public Health, Los Angeles County Department of Public Health, Los Angeles County Office of Education, and the Long Beach Department of Health and Human Services. These guidelines include health and safety protocols for students and staff along with cleaning and sanitization protocols for busses. Any social distancing procedures in place at the time of planned Measure E projects may impact the availability of transportation to and from interim housing locations and home schools due to decreased bus capacities.

Further transportation updates will be provided directly to the school communities impacted. Thank you for your continued support of our schools during this time.
